Question

Describe the shape of the cheese inside the sandwich in the picture.

Inwardly concave rounded polygons.

Color

The cheese inside the sandwich is shaped like a **triangle**.

GPT-4V

Describe the color of the left glass.

The color of the left glass appears to be a gradient, transitioning from purple at the top to black and then to red at the bottom.

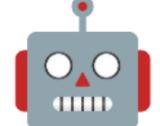

The glass on the left features a gradient color design, transitioning from purple at the top to **dark blue**, then into **lighter blue** shades, and finally to a **vibrant green** at the bottom. This effect is known as an ombre or gradient...

LLaVA-1.5 13b

The cheese inside the sandwich in the picture is **triangular**.

The left glass is **red**.

MiniGPT-v2

The shape of the cheese inside the sandwich can be inferred from the image provided. Here's what it looks like: The cheese inside the sandwich is **square** in shape and looks to be relatively thin and evenly sliced.

As you focus on the left glass, you notice that it has a rich, **deep blue color** that seems to swirl and shift as you look at it from different angles. The **blue** is so vibrant and intricate...

Size

Could you identify and locate the plant with the tallest and the second tallest height in the picture?

Fifth from the left and first from the left.

The tallest plant is located on the far right side of the image?it is the one with the long slender leaves that extend upward. **The second tallest plant is immediately to its left**, with broader leaves that also show an upward growth habit...

In the image, the tallest plant is located on the left side, and the second tallest plant is located on the right side. Both plants are standing in pots on a checkered floor.

I apologize, but I cannot accurately identify or locate specific plants in the image you provided. Because it is a generic image with various plants in different pot sizes and heights. However, I can suggest some popular tall houseplants that are easy to grow and maintain...

Position

Is the green apple to the left of the orange book?

No.

Yes, the green apple is to the left of the orange book in the image.

Yes, the green apple is to the left of the orange book.

There is no orange book in the image you provided. The green apple is on the left of the blanket.
